

# Wash Cloth PREPAC® Advanced 2 and 2+ H-UV

Baldwin

## K-Supply

K-Supply Wash Cloth PREPAC® Advanced 2 and 2+ H-UV offers printers the best cleaning result on the market. The wash cloth cleans consistently and thoroughly, customised for extensive cleaning efficiency in all H-UV and H-UV-L printing presses. With excellent performance and short wash programs, cleaning printing presses has become easier, quicker and more cost-effective than ever before.

### Up to 25% reduced start-up waste

Up to 25% reduction of waste sheets during start-up is achieved due to the unique cleaning agent and its interaction with cleaning media and press room chemicals. Additionally, the blankets will be considerably dryer after the wash, effectively eliminating toning and dripping.

### Up to 100 hours increased production time

Since the wash cloth is pre-impregnated with a H-UV-optimised cleaning agent precisely applied to each cleaning roll, the wash time is significantly reduced, up to 25%. The short wash programs lead to maximised productivity, up to 100 hours of additional production time per year. PREPAC® Advanced 2+ comes with nearly 30% extra cloth length, allowing maximised number of wash times per roll and fewer roll changes, increasing production time even further.

### Unmatched reliability

K-Supply Wash Cloth PREPAC® Advanced 2 and 2+ H-UV is based on the well proven Baldwin PREPAC® Advanced technology which provides the best cleaning results on the market.

### Benefits

- Reduced start-up waste, up to 25%.
- Increased productivity, up to 100 additional production hours per year.
- Optimised for H-UV and H-UV-L presses.
- Faster cleaning, shorter make ready times, increased productivity.
- Approved for H-UV and H-UV-L dryers, no special H-UV and H-UV-L dryer procedures required.
- Full material compatibility.
- All-in-One product, no manual handling required.
- The 2+ version is featured with extra cloth length, enabling maximised number of wash times per roll and fewer roll changes.

### Specifications

Product name	K-Supply Wash Cloth PREPAC® Advanced 2 and 2+ H-UV by Baldwin
Application	Wash cloths to clean presses with optimised printing results. Suitable for H-UV and H-UV-L presses and mixed printing.
Size	Customised
Packaging	Vacuum and heat-sealed packaging
