

Roller Protection Paste

K-Supply

K-Supply Roller Protection Paste has been specifically developed to help protect non-inked rollers while idling. This product, tried and tested at the Komori Graphic Center-Europe, is highly effective and suitable for all printing presses.

Benefits

- Prevents rollers from wearing out.
- Ensures there is no swelling or shrinking of the rollers.
- Suitable for NBR and mixed rollers.

Directions

Clean and blade the printing rollers with a washing agent. Apply K-Supply Roller Protection Paste to the non-inked rollers with a spatula and leave to sit. When ready, simply remove the paste with a washing agent.
