

# Aquacon II Water Conditioner Prisco

## K-Supply

K-Supply Aquacon II Water Conditioner by Prisco is a “rehardening” solution additive with neutral pH. It is added to RO water to provide a consistent alkalinity level before the addition of fountain solution concentrates. This treated water provides a consistent starting point for fountain solution preparation that facilitates an optimum offset printing performance.

### Benefits

- Reduces corrosive properties of RO water.
- Stable and consistent water hardness.
- Restores a neutral pH value to water.
- Use plastic pumps only.

### Directions

Add 0,5 % K-Supply Aquacon II Water Conditioner to RO water. A water hardness of between 8 to 10 °dH will be achieved when used as directed.

### Specifications

Product name	K-Supply Aquacon II Water Conditioner by Prisco
Packaging	25 Ltr Cuben

 **Directions for Use:**  
For details, please refer to the safety data sheet.
