

# Wash Cloth PREPAC® 2+ H-UV Baldwin®

The K-Supply Wash Cloth PREPAC® 2+ H-UV offers printers everywhere to get the best cleaning result out of their presses. Cleaning printing presses has become easier, quicker and more cost-effective than ever before. The wash cloth cleans consistent and thorough and is suitable for different H-UV and H-UV-L printing presses.

## Reduced wash time and Increased production time

Since PREPAC® 2+ H-UV is pre-impregnated with a UV-adapted cleaning agent that is precisely loaded in each cleaning roll, the wash time is significantly reduced, up to 25%. Short wash times and less roll changes minimize production downtime and increases the productivity up to 100 hours of additional production time per year

## Reduced start-up waste

Up to 25% reduction of wasted sheets during start-up is achieved due to the unique cleaning agent and its integration with the cleaning media and press room chemicals. Additionally, the blankets will be considerably dryer after wash.

## Unmatched reliability

It is proven that K-Supply wash cloth PREPAC® 2+ H-UV which is based on Baldwins PREPAC® Advanced technology, enables the best cleaning results on the market.
